DOCK WATER

PURIFY WATER FROM YOUR ONBOARD WATERMAKER

When you don't have access to a dock water supply, the SZ HD Series takes our SZ technology one step further and purifies water from your on-board watermaker. The Double Pass system has an added tank to accumulate watermaker water for processing, and then quietly rejects up to 99% of TDS, removing viruses, cysts, bacteria as well as radioactive contaminants.

KEY BENEFITS

- Designed to work with a watermaker
- Fully modular remote mountable design
- LCD Backlit Display
- Tank Switch Input
- 316L Stainless Steel Flow & Pressure Components
- Digital TDS Reading
- TEFC Motor with Thermal Motor Protection
- Ultra-Low Energy Membranes
- Computer Controller
- Made in the U.S.A.

Model	SZHD4000	SZHD5000	SZHD6000
Capacity Per Day (gal/m3)	4000/15.14	5000/18.92	6000/22.71
Capacity Per Hour (gal/l)	167/632	208/787	250/946
Amps (230/220v//60/50hz)	8.2/7	8.2/7	8.2/7
Amps (115v//60hz)	16.4/14	16.4/14	16.4/14
Breaker Size 230/220V (amp)	20	20	20
Breaker Size 115V (amp)	30	30	30
Net Weight (lbs/kg)	155/70	177/80	197/90
Shipping Weight (lbs/kg)	249/113	271/123	293/133
Shipping Dimensions (H x W x L)(in/cm)	30 x 42 x 48 /76 x 107 x 122		

*Production may vary +/- 20%

1. EASY TO USE

Starts automatically when system receives feed water

2. EASY TO INSTALL

Clearly labeled for easy installation

3. QUIET OPERATION

Very low noise and vibration
